

GRAIN MOISTURE METER

เครื่องวัดความชื้น ธัญพืช

MODEL : GM010

TLEAD

APPLICATIONS

- Grain Moisture meter for rice, wheat, corn, soybean, rapeseed etc.
- LCD display
- Automatic weighing, temperature compensation

FEATURES

- Quick, accurate, convenient
- AC/DC power supply compatible
- High-brightness backlight LCD, clear and energy-saving
- Multi point calibration, error correction
- Low power consumption, automatic shutdown
- Automatic weighing and temperature compensation
- Volume-weight conversation display
- Measuring objectives: foodstuff, and other non-metal granular sample, such as rice grain, wheat, corn, soybean and rape seed etc.

TECHNICAL DATA

- Measuring error: less than +/- 0.5%
- Repetitive error: less than 0.2%
- Measuring range: 0-40%
- Measuring time: less than 10 seconds
- Environmental temperature: 0-40C
- Power supply: four 5#alkaline batteries or external 9V DC.
- Display model: high-brightness backlight LCD
- Net weight: 910gm
