เครื่องวัดแอลกอฮอล์ เครื่องเป่า Alcohol รุ่น AMT6100

Digital Alcohol Tester

- Advanced flat surfaced alcohol sensor
- Quick response and resume
- SMD assembling, stable performance
- Smart MCU control
- Direct testing process LCD indication
- Digital LCD display with light blue backup
- Portable and fashion design
- Audio warning beyond pre-set limit
- Sensor Fault Self checking
- Battery saved design, low voltage indication

Main Techniques

- Sensor type: flat surfaced alcohol sensor
- Working Voltage: DC4.5V（3×AAA）Batteries
- Working Current: ≤120mA
- Working Environment:
  – Temperature -10℃～50℃
  – Relative Humidity ≤95% No Dews
- Detection Range:
  – 0.00～1.00mg/L
  – 0.00～0.20%BAC; 0.00～2.00g/L; 0.00～2.00‰BAC
- Alarming Level: 0.25mg/L (0.05%BAC, 0.50g/L; 0.50‰BAC)
- Accuracy: ±10% F.S
- Response Time: ＜5s
- Resume Time: ≤20s
- Display: 3 digits LCD display with light blue backup
- Dimension: 100×70×28mm (L×W×H), ≤65 g Battery excluded
- Battery expectancy time: ≥200Times
