

เครื่องมือวัดองศา รุ่น **MSD001**

Digital Angle Gauge Meter Protractor 360°C Applications

- Drainage angles and run-off slopes
- Tool setting on Lathes
- Setting blade angle of Circular Saws
- Setting blade angle of Miter Saws
- Setting work piece angle for milling
- Grader and tractor work alignment
- Platform monitoring
- Check drill press table setting, table saw, jointer table, band saw, jointer fence or band saw table

Detail

- Small and portable design
- Fast and accurate measurement
- Degree and Percentage of slope in conversion
- Measuring range of 4 x 90° with $\pm 0.1^\circ$ repeatability
- Large and clear LCD display with 0.1° resolution
- Hold Measured data
- Calibrate button to calibrate the meter to any reference surface
- Three built-in magnets on the base can attach any magnetic surfaces
- The unit will directly enter the state of absolute angle measurement every time be turned on (No matter change the batteries)
- Absolute and relative measurement conversion
- Measuring Range: 4 x 90°
- Resolution: 0.1°
- Repeatability: $\pm 0.1^\circ$
- Operating Temperature: 0 ~ 40 °C
- Operating Humidity: 40 ~ 80%
- Power: 3 x 3V CR2032 Batteries (included)
- Dimensions: approx. 51 (L) x 51 (W) x 27 (D) mm (2.01' x 2.01' x 1.06' inch)
- Weight: 122 g (batteries included)
