

DY3015B | DY3015C

AUTOMOTIVE BATTERY SYSTEM TESTER WITH PRINTER

- Four tester fully diagnose battery status and electrical system of the car
- Battery conclusion upon rich parameters measured
- Wrong-polarity-protected, overload voltage protected
- New print format
- The test adds AH input look-up table
- New language

SPECIFICATION	RANGE	DY3015B	DY3015C
Battery Test		●	●
Engine Activation Load Test		●	●
Maximum Load Test	*1	●	●
Charging System Test		●	●
CCA Range	100~1700	●	●
IEC Range	100~1000	●	●
EN Range	100~1700	●	●
DIN Range	100~1000	●	●
JIS Range	Reference table	●	●
Displays Battery Internal Resistance	Display ohms	●	●
Displays Battery Voltage	Display volts	●	●
Displays Battery Condition	good/OK/pay attention/replace	●	●
Thermal printer		●	●
Test 12V Batteries		●	
Test 12V/24V Batteries			●
Battery Recharge Indicator		●	●
Reverse Polarity Protection		●	●
Detects and Displays Bad cell		●	●
Loose Lead Detection		●	●
Internal Unit Conversion EN,EIC,DIN		●	●
Overload protection of input voltage		●	●
LCD	Dotted-matrix 128*64	●	●
Cable Length			700mm
Dimension			93 * 55 * 210 mm
Weight			500 g

*1 Test current relies on car's displacement
